

PROCESSING AID MB: HPPABO101

Product description

The MB HPPABO101 is a « Processing Aid » masterbatch containing fluoro processing aids of the third generation, recommended for use as an additive for the processing of BOPP.

Its use allows to :

- Increase the extrusion throughput,
- Decrease the extrusion temperatures,
-

The granular shape of the Processing Aid MB HPPABO101, very similar to the polyolefin resin in terms of size and density, allows an easy mixing/dispersion with the raw materials.

Specifications (Reported on CoA)

Content of Fluoro PA	4.8-5.2%	M PABO
----------------------	----------	--------

Additional Typical Values

Appearance	Milky Opaque Granules	M001
Bulk Density	0.49-0.60	M003

Recommendations of use

Use MB HPPABO101 at levels from 0.2-1.0%.

Packaging

MB HPPABO101 is supplied in 25 kg plastic bags on 1000 kg or 1375 kg wooden pallets.

Ed. 01 14/08/2015

Storage Conditions

It is recommended to avoid the exposure of MB HPPABO101 to sunlight and high temperatures for longer times as this may impair the quality of the MB. Storage lifetime is 1 year.
