

WHITE UV COMBOS: HPWUVC101

Product description

The MB HPWUVC101: is a Engineered White / UV masterbatch based in LLDPE. This product has been specifically engineered to provide dispersion and opacity at a competitive cost with good distributive letdown mixing.

The granular shape of this MB, being very similar to that of the LLDPE resin in terms of size and density, allows an easy mixing/dispersion with the raw materials. This product has been designed to be suitable for Extrusion coating.

Specifications (Reported on CoA)

Ash Content	73-77	M WHF
-------------	-------	-------

Additional Typical Values

Appearance	White Granules	M001
Bulk Density	1.1-1.20	M003

Recommendations of use

Addition levels of MB HPWUVC101 depend on various factors such as thickness of the article, expected service life, presence of fillers and other additives and commonly range from 0.5-3%. Contact us for your specific recommendation needs.

Packaging

MB HPWUVC101 is supplied in plastic bags on 1000 kg or 1375 kg wooden pallets.

Storage Conditions

It is recommended to avoid the exposure of MB HPWUVC101 to sunlight and high temperatures for longer times as this may impair the quality of the MB. Storage lifetime is 1 year.
